CAR STRIKE IN S. F. IS EXTENDED

(Continued From Page 1)

not quit. Naturally he quit, but we have him back today. The situation is in good shape as far as we are concerned."

SAYS WHOLE SYSTEM WILL BE TIED UP

"The entire system of the United Railroads will be tied up very shortly," said Benjamin F. Bowber, vice-president of the Amalgamated Association of Street and Electric Employees of America. "We are making a clean fight without violence and we are asking only for a living wage and right conditions. The public is with us and the men on the cars will soon be in our ranks. Our parade was certainly a demonstration of our strength and we will be stronger tomorrow than we are today."

President Jesse W. Lillenthal of the United Railroads said this morning that he would make no reply to the communication signed by Bowber and asking for recognition for the new carmen's union and an increase in wages.

"We will not treat with men who have left the company's employ," said Lillenthal. "We do not intend to recognize the communication received from Mr. Bowber in any way. Our men left us without presenting any demands, and we have no further interest in them. All we are concerned about now is trying to run our cars, and we are improving our service today."

Chief of Police D. A. White, who was forced to leave town after returning from his vacation on Monday, reached the city today, relieving Captain Daniel O'Brien, who has been acting head of the department. The latter toured the Mission this morning and reported conditions quiet.

Secretary Dan O'Connell of the Labor Council with D. F. Bowber and Attorney John Greeley waited on the Board of Health today regarding the housing of men in the car barns of the United Railroads. The board fixed 6 o'clock tonight as the hour for hearing protests that the law was being violated. More than a score of defendants arrested in connection with the strike were before Police Judge Matthew Brady with R. Fortney Ash as appearing as special counsel and prosecutor for the United Railroads. The cases were put over until Tuesday.

WILL END THIS STRIKE.

KANSAS CITY, Aug. 16.—A settlement of the street car strike before night was certain at noon today when union organizers urged a meeting of the union to accept a peace agreement formulated by a committee of business men and A. A. Black, representative of the Department of Labor. The company already has signified its willingness to accept the settlement that the car service, completely at a standstill for eight days, will be resumed at once.

MAY STRIKE AT PORTLAND.

PORTLAND, Ore., Aug. 16.—Portland street car platform men, organized recently under the Amalgamated Street and Electric Railway Employees' Association of America, last night presented demands for shorter hours and higher wages to the Portland Railway Light and Power Company, which operates Portland's car lines. Union officers asserted the men will strike if their demands are refused. The company is delaying its answer until the return of its president F. T. Griffith from his vacation.

Vatican's Appeal For Peace Sends Plea Throughout England

LONDON, Aug. 16.—The foreign office has issued of Italy or the United States, I very respectfully beg Your Majesty to be good enough to have handed a copy of His Holiness' appeal to the President of the French republic, to His Majesty the King of Italy, and to the President of the United States... I also beg to add twelve other copies which I request Your Majesty to be good enough to hand to the leaders of the nations friendly to the allies, with the exception, however, of Russia, Belgium and Brazil, to whom the document has been sent direct.

"In expressing to Your Majesty my sincere thanks for this extreme kindness, I am happy to take the opportunity to offer you the homage of sentiment a very profound respect with which I have the honor to sign myself Your Majesty's very humble and devoted servant."

"The Holy See, not having diplomatic relations with the French government or with the government of Italy or the United States, I very respectfully beg Your Majesty to be good enough to have handed a copy of His Holiness' appeal to the President of the French republic, to His Majesty the King of Italy, and to the President of the United States... I also beg to add twelve other copies which I request Your Majesty to be good enough to hand to the leaders of the nations friendly to the allies, with the exception, however, of Russia, Belgium and Brazil, to whom the document has been sent direct."

POPE BENEDICT'S PEACE PLEA

To the leaders of the belligerent peoples: Since the beginning of our pontificate and the horrors of a terrible war let loose on Europe, we have had in view, above everything, three things to preserve: Perfect impartiality towards all belligerents, as is suitable for him who is the common father and who loves all his children with equal affection; continually to attempt to do all the good possible and without exception of person, without distinction of nationality or religion as is dictated to us by the universal law of charity which the supreme spiritual charge has confided to us with Christ; Finally, as our pacific mission also requires us to seek nothing as long as it is in our power, which might contribute to hasten the end of this calamity by trying to lead people and their leaders to more moderate resolution to hasten a serene deliberation of a peace just and durable.

Whoever has followed our work during these three painful years which have just passed has been able easily to recognize that if we had always remained faithful to our resolve of absolute impartiality and to our attitude of benevolence, we have not ceased to exhort the peoples and the belligerent brothers again to become brethren, although publicity has not been given to all that has been done to attain this very noble aim.

FIRST APPEAL OF POPE NOT HEARD

Towards the end of the first year of the war we addressed to the nations in conflict most lively exhortations, and, more, we indicated the part to be followed to arrive at a stable and honorable peace for all. Unfortunately our appeal was not heard and the war continued desperately for another two years with all its horrors and its even more cruel and extended over the earth, over the sea and in the air, and one saw desolation and death descend upon the cities without defense, upon peaceful villages and on their innocent populations.

How the sufferings of all would be increased and aggravated if other months, or worse still, other years, are added to be added to this sanguinary triumph.

In this civilized world to be nothing more than a field of death? And Europe, so glorious and so flourishing, is it going as if stricken by a universal madness to run to its own suicide? To lend its hand to its own suicide?

In such a terrible situation and in the presence of menace so serious we who have no particular political aim, do not listen to suggestions or to the interests of any of the belligerent parties, but are solely impelled by a sentiment of our supreme duty as the common father of the faithful, by the

solicitation of our children who implore our intervention and our pacifying work.

"THROUGH THE VOICE OF HUMANITY"

Through the voice of humanity and of reason we once more emit the cry of peace and we renew a pressing appeal to those who hold in their hands the destinies of nations. But in order no longer to speak in general terms as the circumstances had counseled us in the past, we now wish to make more concrete and practical proposals and to invite the governments of the belligerent peoples to come to an agreement upon the following points, which seem to be a basis of a just and durable peace, leaving to them the task of analyzing and completing them.

First of all, the fundamental points must be that the material force of arms be substituted by the moral force of right from which shall arise a fair agreement by all for the simultaneous and reciprocal diminution of armaments according to the rules and guarantees to be established in a measure necessary and sufficient for the maintenance of public order in each state. Then in the substitution for armies the institution of arbitration with its high pacifying function, according to the rules to be laid down and the penalties to be imposed on a state which would refuse either to submit to arbitration or to accept its decision.

Once the supremacy of right has thus been established, all obstacles to the means of communication of the peoples would disappear by assuring, by rules to be laid down, the true liberty and community of the sea which would contribute to end the numerous causes of conflict and would also open to all new sources of prosperity and progress.

DAMAGES REPAIRED AND WAR EXPENSES

And the war expenses, we see no other means of solving the question than by submitting as a general principle the complete and reciprocal condonation which would be justified moreover by the immense benefit to be derived from disarmament; so much so that no one will understand the continuation of a similar carnage solely for reasons of an economic order.

If for certain cases there exist particular reasons they would be deliberated upon with justice and equity, but these specific agreements with the immense advantages to be derived from the complete disarmament without a RECIPROCAL RESTITUTION OF THE TERRITORY AT PRESENT OCCUPIED.

ARMENIA, BALKANS, KINGDOM OF POLAND

The same spirit of equity and justice ought to be followed in the examination of other territorial and political questions, notably those relative to Armenia and the Balkan states and territories making a part of the ancient kingdom of Poland, whose noble and historical traditions and sufferings which it has endured especially during the present war ought to conciliate the sympathies of nations.

Such are the principal bases whereon we believe the future reorganization of the peoples ought to be built. They are of a nature to render impossible the return of similar conflicts and to prepare a solution of the economic question so important for the future and for the material well being of all belligerent states.

Therefore, in presenting to you, who direct at this hour the destinies of the belligerent nations, we are able to see them accepted and to see thus the conclusion at an early date of the terrible struggle which more and more appears a useless massacre.

The whole world recognizes that the honor of the armies of both sides is safe. Incline your ears, therefore, to our prayer. Accept the fraternal invitation which we send you in the name of the Divine Redeemer, the Prince of Peace, reflect on your very

What Shall We Have for Dessert?

If all the housewives in the East Bay cities knew how easy it was to serve Lehnhardt's ice cream specialties in brick form, there would be less cooks complaining of the daily problem of what to have for dessert.

grave responsibility before God and before man.

On your decision depends the repose and the joy of innumerable families, the life of thousands of young people; in a word, the happiness of a people for whom it is your absolute duty to obtain their welfare.

May the Lord inspire your decision in conformity to His very Holy Will. We feel great joy at the idea of meriting the applause of your contemporaries you will also obtain in the future generations a splendid name of pacificator.

As for us, closely united in prayer and in penitence with all those faithful souls which sigh for peace, we implore for you the light and counsel of the Divine spirit.

At the Vatican, August 1.

PRINTERS PLEDGE WILSON SUPPORT

COLORADO SPRINGS, Colo., Aug. 16.—The United support of the International Typographical Union was pledged to President Wilson at the session of the sixty-third annual convention of the union being held here. A resolution declaring for the principles of democracy and the right of the nation to work out their own destinies was also adopted unanimously. The Woman's International Auxiliary adopted a resolution pledging support of the government in the conduct of the war.

The proposition to hold conventions annually in Indianapolis with the exception of meeting in Colorado Springs every tenth year was defeated. Scranton, Pa., was the only place placed before the convention for next year's convention.

N. Y., has no opposition for the 1919 convention.

The convention adopted a pension plan under which printers reaching the age of sixty years and twenty years of continuous membership in good standing shall receive a pension of \$5 a week if they cannot be received at the Union Printers' Home. Formerly continuous membership was not required.

H. M. Kellogg, chairman of the American Newspaper Publishers' Association, with which the International Typographical Union recently signed a new five-year agreement for arbitration of difficulties, addressed the convention, criticizing the "discriminating tax the government proposes to make on newspapers."

LIE, SAY GERMANS

AMSTERDAM, Aug. 16.—A New York dispatch saying that an official warning had been issued in the United States against the use of German bandage materials and courtplaster has just been permitted publication in German newspapers. Appended to the dispatch as printed in newspapers received here from Germany is an emphatic denial that German bandages and courtplaster had been infected with disease germs. It is stated that the contents of the despatch, namely labels and lies and that Americans are using "similar methods for the incitement of the people as the entente has done for three years."

TAX BILL HALTED

WASHINGTON, Aug. 16.—The two billion dollar revenue bill began to encounter stormy going today when the Senate finance committee's tax on excess profits was introduced. The Senate finance committee has gained numerous recruits from among Senators who believe wealth should pay a bigger share of this year's tax bill, now estimated at \$17,000,000.

The Senate finance committee has made it clear that it is not adverse to the principle of taxing war profits to the limit, but it takes the view that it would be an unwise policy to tax them to death in the first year of the war.

BILL IS DERIDED

AMSTERDAM, Aug. 16.—Referring to the bill introduced in the United States Senate on August 13 providing that whenever German and other publications printed in foreign languages publish any comment on the acts or policies of the United States government they must print an English translation of it in a parallel column, the Anglo-Saxon press says: "Henceforward there shall be citizens of the first and second class in the United States. Anglo-Saxons and the ruling race and the Germans their servants."

SPEAKER FIGHTS

LONDON, Aug. 16.—A despatch to the Exchange Telegraph Company from Melbourne says that Mrs. Emmeline Pankhurst, the suffragette, while attempting to make a speech at Adelaide, South Australia, and was arrested. Assemblies in parliament precincts are prohibited.

WEEK'S SHIP LOSS

PARIS, Aug. 16.—The weekly report of shipping losses gives one steamship of more than 1600 tons and three of smaller size as having been sunk in the week ended August 12 out of 1010 arrivals and 1025 clearances at French ports. Five French vessels were attacked unsuccessfully by submarines.

COUNT TO RESIGN

AMSTERDAM, Aug. 16.—Count Moritz Esterhazy, who since last June has been premier of Hungary, is expected to resign on account of ill-health, according to a Vienna telegram printed in the Vossische Zeitung of Berlin.

PEACE NOW MEANS DISASTER, SAYS T. R.

NEW YORK, Aug. 16.—"If we have peace now as proposed by the pacifists, Socialists, I. W. W. and the whole raft of sexless creatures, we would have war after war; we would be trampled by invader after invader as China was."

Colonel Theodore Roosevelt so delivered himself last night in a speech at the Harvard Club, where he addressed 600 Harvard men, the majority of them in uniform and ready to leave for Plattsburg.

"When we get 5,000,000 fighting men on the other side, then the knell of the Hohenzollerns will have struck," he declared. "The Red Cross work is a fine thing. The Liberty Loan is admirable. Potato raising—Hip, hip, hooray! Three cheers! But not one of these are any good without fighting men."

The Colonel praised President Wilson for some of the activities of the administration and then voiced his criticisms of the peace party and its seven months of war the United States has done practically nothing aside from the French movement on the west front.

CROWDER STOPS DRAFT BOARD RESIGNATIONS

WASHINGTON, August 16.—Provost Marshal General Crowder today set his foot down hard on the too general refusal of members of exemption boards to serve.

The draft has been hampered, he said, by large numbers of resignations, and he wired the governors of the states, to stop the flow of withdrawals coming to Washington.

"Members of the boards have been drafted," he said, "and execution of the draft for the national army cannot be held up by these resignations."

Hereafter, he told the governors, President Wilson will refuse to accept resignations unless each is accompanied by specific and sufficient reasons and is approved by the governor of the state.

SLACKER IS JAILED

August 16. 26 years old, he held in the Alameda county jail where he was taken last night after he had been traced by the Piedmont police to Santa Clara. Chief of Police B. F. Becker brought him back here after the exemption board in Division 3 had posted him as a slacker for failure to answer his summons for examination. Bell was a former resident at Maxwellton Farm in Piedmont.

SEEK INDICATION OF WINE ACTION

Request for a decision by Acting Collector of Internal Revenue William C. McCarthy as to whether the president intends authorizing the production of grape brandy for use in the fortification of sweet wines as provided in the new food act, has been made by local brandy makers. The latter claim they can make no preparations until the president decides the fate of the sweet wine industry which amounted this year to 15,000,000 gallons.

The brandy manufacturers have been ordered to install expensive meters in their plants before September 1. This they will not do until they receive assurances from Washington that they can continue to make brandy. The grape brandy business last year amounted to \$3,338,959 gallons of which at least one-half was used for the fortification of sweet wines. The government's revenue from the brandy and sweet wine exceeded \$5,500,000.

Bowman's Bulletin

Vol. 5. BROADWAY AND 13TH, OAKLAND. THURSDAY, AUGUST 16, 1917 No. 38

Published Every Few Days By **BOWMAN DRUG CO.** 13th and Broadway Oakland Other Stores 13th Ave. and E. 14th St. Oakland Chastock and Center, Berkeley Circulation Guaranteed to Equal that of Any News-Sheet. Suggestions Solicited.

EDITORIAL

Ever since we started in business we have numbered our prescriptions consecutively and last Saturday we compounded our millionth prescription. This means that one million prescriptions have been put up by our down town Oakland store alone and does not include our Berkeley, East Oakland or Fresno stores.

If we handed out one prescription every minute for 12 hours a day, six days a week, it would take us nearly 4½ years just to pass them out.

If it took 15 minutes to compound each of them it would take one man over 6½ years to put them up providing he worked 12 hours a day without intermissions 6 days a week.

Wholesalers and traveling men in touch with the drug trade tell us that our Thirteenth and Broadway store does one of the largest prescription business among single stores in the U. S.

Our prescription clerks do nothing else but work on prescriptions. They are not allowed to be interrupted.

BOWMAN'S MILK OF MAGNESIA

Have you tried Bowman's Milk of Magnesia? It is more palatable than many of the similar preparations and it is a little richer in Magnesia, so a somewhat smaller dose may be taken.

It corrects acidity of the stomach and certain forms of indigestion. It is mild in its action and is particularly valuable with children.

It is also very efficacious as a monthly "wash" through correcting acidity, preventing decay and preserving the teeth.

THE POWDER THAT COMES FROM EUROPE

The Kind That's Easy To Face

About the only kind of powder coming from Europe to America is face powder.

And among these face powders there is one kind, coming from France, that is becoming wonderfully popular in our store.

We refer to Precada Face Powder selling at 50c a box.

This is the most expensive and satisfactory imported face powder we ever handled and the war has made no change in its quality or price.

Shipments are coming in regularly again and we would advise you to try it if you enjoy and appreciate a face powder of the best grade.

Prices from 25c up.

BATH CAPS THAT MAKE FRIENDS FOR US

Rightly Priced and Correctly Styled

We always like to have people ask to see our Bath Caps because we have such a satisfactory assortment to show them.

By this we mean that we have them at the right prices in the right styles for various purposes.

For example we have close fitting diving caps (used by expert swimmers in races), full caps for girls with lots of hair and fancy caps for folks who appreciate the fact that a bathing costume should be made attractive just the same as a walking costume or a party dress.

"FABRIKOID" HAND GRIPS

Look Exactly Like Leather

Have you ever seen a "Fabrikoid" Hand Grip? You have probably seen them and thought they were leather. In fact if you saw one you'd bet they were leather.

Few people realize how perfectly leather has been imitated in appearance, wearing qualities and every other feature. Many automobile seats are "Fabrikoid," yet their owners think they're leather.

This new "leather" is worth looking at. It costs about half as much as leather of the same appearance and will wear equally well. We have a very good assortment of grips in both women's and men's sizes.

ARGO ANT POISON DOING EFFECTIVE WORK

Our New Preparation Is Meeting With Great Success

Our new "Argo" Ant Poison is working out with remarkable success when used out of doors as directed.

This is not surprising, however, because the authorities studied it out carefully and experimented with it for many months before we offered the preparation to our trade.

"The Argentine Ant" is a pest so serious that it is receiving the attention of entomologists in all sections where it exists and "Argo" Ant Poison is the most effective remedy to fight them so far devised.

An ordinary garden requires one 25c bottle and about 8 or 10 feeders which we sell at 5c each. One feeder free with each bottle.

FOUR GOOD SPECIALS

ON SALE TOMORROW AND SATURDAY ONLY

50c Bowman's Lister Tooth Brush

Made in France—dentally correct. The price has advanced and we have had great difficulty in obtaining them. We are giving the old users of these brushes a special chance to buy them at the old price. Special Friday and Saturday... **35c**

\$1.50 Bath Spray

A luxurious spray—large size tubing—best quality maroon rubber. If you haven't a bath spray or need a new one, take advantage of this special—connection fits any faucet. Special Friday and Saturday... **\$1.05**

25c Bowman's Headache Powders

Bowman's Headache Powders usually give prompt relief. Special Friday and Saturday... **14c**

50c Dressing Combs

Hard rubber—many of our customers prefer a hard rubber comb. This special entitles you to any 50c hard rubber comb in our stock, either all coarse or coarse and fine teeth. Special Friday and Saturday... **29c**

KODAKS FOR SOLDIER BOYS

Vest Pocket Kodaks for Soldiers are in stock. Price \$6.00 each.

Don't let the boy you know get away without one. Films to fit them can be purchased in France or wherever the army may be called. War pictures will be worth their weight in gold to the recipient of a Vest Pocket Kodak. Remember the gift and the giver for many years after his return.

YOUR FRENCH IVORY COLLECTION

How about French Ivory? Have you completed your boudoir set? Have you a clock and enough trays? Don't forget everything we have about everything made in this line, which we are selling at the very lowest prices.

Nothing makes a more acceptable gift. Maybe somebody is going to have a birthday. Why not give them French Ivory?

THE NIGHTS ARE GETTING COLD

This is the time of year that hot water bottles go to work.

When you think of purchasing one please remember that Bowman's guarantee every one they sell.

It has been our experience that the Lynwood bottle gives the most satisfactory service, therefore we recommend the three quart; \$1.50, and a quart \$1.75.

CLUBWOMEN REJOICE AT BOND VOTE

(Continued From Page 1)

The \$1,000,000 for the hospital and bridge have already been worked out by the board of supervisors and D. J. Murphy, president, expects to start the work of signing the \$500 by the bonds as soon as they have been received from the printers, probably next week.

The bonds will be issued in \$500 denominations, and will be sold this morning, and will be sold in the afternoon. The county does not need the full amount immediately and I can see no reason why we should set ourselves to pay interest on this money until it is needed. The annual amount of advertising for bids and selling to bond-holders, banks, etc., will be followed.

Prominent clubwomen and leaders of women's organizations in this county are rejoicing today because the hospital bonds for which they have been working persistently during the past few months have been carried. The fact that there is now to be a hospital that can no longer be referred to as a "disgrace" is being hailed by them generally as one of the biggest things that has happened in the east bay in years.

CLUBWOMEN REJOICE AT HOSPITAL VICTORY
Mrs. James B. Hume, president of the President's Club, former president of the California Federation of Women's Clubs, and a member of the Oakland Club, who has been working for the office of commissioner, goes so far as to say: "I think it is the one big step we have made here in the past few years. It is decidedly the biggest thing that has happened in the county who has worked for a new hospital here will have cause to be glad some day that she made this effort."

Miss Beattie Wood, member of the Oakland Club and of many civic organizations, who has been working for the office of commissioner, goes so far as to say: "I think it is the one big step we have made here in the past few years. It is decidedly the biggest thing that has happened in the county who has worked for a new hospital here will have cause to be glad some day that she made this effort."

A director of the Oakland Center who was active in the campaign to do away with the old hospital out on the boulevard and to build a new one, Mrs. Frank Law, feels that "now a great need of the community will be filled" since the hospital bonds have been carried.

"Had those bonds not carried," she added, "many of us would have felt very badly."

"The city should be congratulated," said Miss Lorena MacIntyre, barkeeper and a director of many leading organizations, "for the splendidly that the bonds carried and to the credit of the women who worked so faithfully throughout the campaign."

Mr. A. E. Carter, president of the Alameda county unit of the National and State Councils of Defense, considers it a "very big thing for the city," likewise.

"This is a matter," she said today, "that the civic-minded women of this county have been deeply concerned about. To think there is to be a splendid institution in place of the one that has been actually dreaded by those who have had to go there is something to make us rejoice."

EL SEGUNDO SAFE

SANTA MONICA, Aug. 16.—After sending up a distress signal last night while stuck on a sand bar off Playa Del Rey, the Standard Oil tanker "El Segundo" was washed free by the time this morning and resumed her trip to El Segundo. The only reported damage to the vessel was a slight leak which necessitated the use of the pumps.

Alkali Makes Soap

Bad for Washing Hair

Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is just plain mildest coconut oil, for this is pure and entirely greaseless. It's very cheap, and beats the most expensive soaps or anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and tangle. —Advertisement.

The Texas Wonder cures kidney and bladder troubles, dissolves gravel, cures diabetes, weak and lame back, rheumatism and troubles of the kidneys and bladder in both men and women. Regulates bladder troubles in children. If not cured by your druggist, will be sent by mail on receipt of \$1.00. One-half bottle is two months' treatment, and seldom fails to perfect a cure. Send for sworn testimonial. Write to W. H. Hall, 2124 Olive St., St. Louis, Mo. Sold by druggists. —Advertisement.

Mother, 101, Motors Here to Help "Boy," 74, Mark Birthday

Motoring from San Jose to this city to celebrate the seventy-fourth birthday anniversary of her son, H. W. Rice, Mrs. S. W. Rice, 101 years old, with her enthusiasm for life still undimmed after a whole century of existence, is taking a brief "vacation" at her son's home, 3085 Capp street, this city. The aged woman stood the trip with remarkable ease and was little fatigued by her unusual experience.

All of Mrs. Rice's three sons are alive. Two of them were at the party. The third, her "baby" of 68 years of age, is in the east. Old-time friends and relatives dropped in during the evening and took part in an old-fashioned reunion. Mrs. Rice, who is in perfect health, stood the strain of the social affair as well as the rest.

The aged woman was born in New York, coming to California many years ago. Of late years she has been residing with her son, A. B. Rice, at San Jose. She is in full possession of her faculties and can read and write and hear with perfect ease.

PHELAN TRIES TO DEFEND DENMAN

WASHINGTON, Aug. 16.—Because he insisted upon reading during a debate on the war revenue bill yesterday a statement by William Denman, the ousted chairman of the shipping board, Senator James Phelan of California was called to time by Senator Penrose of Pennsylvania for his "idle fooling" and informed that Denman is "an arrogant ass."

Penrose was sustained by Senator Lodge of Massachusetts, who characterized the reorganization of the board as "one of the best things done for the advancement of the United States."

Senator Simmons, who is in charge of the war revenue bill, vainly besought Senator Phelan not to delay the measure by reading the statement. Phelan insisted, however, until Senator Penrose interrupted him by saying:

"When 10,000 men are being killed daily and \$100,000,000 being spent, the Senator from California shows small appreciation of the situation by this idle fooling. This is no place for obituary ceremonies. This man, Denman, who has been in the world's history to go to the defense of Denman, he has little appreciation of the situation. Denman is recognized as an arrogant ass."

Ruffled by this attack, Phelan retorted that one of the issues of questions is whether or not the Government is to be controlled by the steel corporation, and whether "enormous profits are sufficient, if employed by designing and wicked men, to destroy a man who, I believe, was rendering faithful service."

Senator Lodge replied to Phelan: "This is merely a statement of Denman's position. It reflects upon the President of the United States. Mr. Wilson has completely dominated the board, and his action deserves the commendation of the country."

BANNERS SEIZED

WASHINGTON, Aug. 16.—Washington police finally found the answer to the suffrage picketing riot problem today. Four pickets at the White House gates brought out many police and a big crowd at noon. There was no trouble until a "Kaiser Wilson" banner was raised. A crowd surrounded the picket, but a police captain reached her first and secured the banner. She gave it up, and another "Kaiser Wilson" banner was given up on demand. There was no violence.

"We will let them stand around the White House, but treasonable banners will be confiscated," Captain Lather stated.

MANY OWN AUTOS

WASHINGTON, Aug. 16.—With one automobile for every 11 persons in the state, Iowa led the country in 1916 in the number of motor cars per capita, according to official figures in the government office of public roads. California was second, with one car for every 12 inhabitants. Nebraska and South Dakota had one for every 13. Arkansas stood last in the list of states, with only one car for every 116 persons. The national average was one for every 29. By sections, the South had relatively the fewest cars in proportion to population.

RELAY RACE ENDS

SAN FRANCISCO, Aug. 16.—Racing against time, the last of the more or more of motorcycle messengers to relay a special message across the continent reported to Major General Hunter Liggett, commanding the western department, at 10:30 Tuesday night. General Liggett replied for the letter, which contained a note from Newton D. Baker, secretary of war. Eight days were consumed in carrying the note from Washington, D. C., but bad road conditions cut the actual running time to very much less than that time.

CLOSE TO TREASON

SAN FRANCISCO, Aug. 16.—Characterizing the selling of liquor to soldiers as approximating treason, U. S. Judge William Hunt today sentenced George Duport, saloon keeper, to eight months in the county jail and fined him \$100. "Any man who would sell liquor to soldiers in time of war," said the Court, "is a menace to peace and to the good order of the country itself. I can safely say that this offense is very close to treason."

Duport had pleaded guilty.

"LADY BOB" WEDS

VENICE, Cal., Aug. 16.—Mrs. E. A. Montgomery—"Lady Bob"—who won the appellation from Lord Kitchener for her philanthropy in England and nursing widow of a man who wrested millions from the sold fields of Nevada, is Mrs. Fred Sargent today, wife of a real estate operator. A newspaper announced that she married some time ago was untrue when they let the contract for a palatial summer home at Hermosa Beach.

YOSEMITE HISTORY TOLD IN PAGEANT

CAMP CURRY, Aug. 16.—The four-day celebration of the Pageant of Yosemite began last night with the giving of Prof. L. G. Nattemper's beautiful program, "The Creation of the Valley." In a series of interpretative dances and songs, symbolizing the Spirit of the Ages, and the spirits of the Winds and the Hills, the Pines and the Summer, a group of young girls led by Miss Hazel Goode and Miss Victoria Gunby enacted the fantasy in the leafy covert of the forest on the outdoor stage at the campfire. An artificial waterfall tumbling among the tops of the transplanted pine lent a novel effect. The program closed with the "Dance of the Bear," and there followed scenes of aboriginal life with Chief Tenaya and his daughter, the Princess Mameasalla, with their tribe. Charles Cummings as Chief Seattle, Miss G. Yeager as Minnetonka and Glenn Hood as Chief Tenaya, took the principal roles.

Today's performance will introduce the coming of the white man, and for two days the early history of California and of Yosemite will be enacted in the fields, meadows and forest along the Merced, with fight and fiesta, stage-coach hold-up and barbecue, the burning of the original log-cabin in the valley, and the final expulsion of Tenaya's tribe.

Monday Miss Ellen Beach Yaw will sing and George Wharton James will give his lecture on the Apache Trail at the campfire. Fred Emerson Brooks, at two campfires this week, gave readings from his California poems and sketches.

ELECTRIC LIGHTS TO ROUT SPOONERS

THIRDS BUREAU

BERKELEY, Aug. 16.—Cupid and electric lights don't mix, and that is the Cupid mixes with the stern disapproval of North Berkeley or the Berkeley Park Commission. Wherefore Live Oak Park, the wonderful new public pleasure ground at Berryman street and Shattuck avenue, decided one of the most beautiful spots in the United States, will no longer be the romantic spot where young swains and their blushing sweethearts retire, to whisper soft nothings in the moonlight. The wonderful rustic benches, where so many wish you would stand and get up engaged—where the ghosts of many a lover's proposal—if proposals have been deserted of nights.

And it's all the fault of the Park Commission. The wonderful park was the Mecca of lovers and the pride of the neighborhood and the officials—until a few days ago. Then letters began to come in from irate neighbors.

"At night there are young couples spooning in that park," wrote Mrs. C. A. Bingham, who lives next to the park fence. "All night long we see 'em, and the neighbors don't think it's nice."

"It's no place for our young girls at night—it's no place for our young girls at night," wrote Mrs. R. C. Jones. "They get too full of spoony ideas."

So the park commissioners meditated on the problem. And after tonight brilliant stars will shine in the lover's lanes and the sheltered nooks—and especially over those rustic benches. For, as the park lights do not mix with the romantic, being young once themselves, know it. It was with a sigh of regretful sympathy born of old memories, however, that they banished love from the garden.

The expenses for the light will come out of the park fund.

JAPANESE HELD

SAN FRANCISCO, Aug. 16.—Arrested as a spy, a Japanese, whose name government officials are withholding, is held by the military authorities at Fort Winfield Scott. It was announced this afternoon by federal authorities. The Japanese was captured by Corporal Michael Maloney of the Fourth Company of Infantry, who knocked the man down when he started to run on being ordered to halt. A warrant against the Japanese charges him with being on the reservation "for the purpose of spying upon and making notes of the military strength" of the fort.

PLAN INSURANCE

BUFFALO, N. Y., Aug. 16.—The Grand Aerie convention of the Fraternal Order of Eagles in session here, has voted overwhelmingly for the establishment of a life insurance department in the order. Officers for the Grand Aerie will be elected at today's session. A. E. Duncan of St. Joseph, Mo., and Fred Smith of Newark, N. J., are candidates for grand worthy president, the only contest.

Dr. Carl G. Winter of Indianapolis will be elected grand worthy president.

GOT LICENSE HERE

Alameda and other counties in Northern California are to be congratulated on the condition of the roads, according to Martha C. Moulster, Seattle motorist, who, with Mary Davis, obtained a marriage license and visited a magistrate here today. They left on a tour of the Pacific Coast states and will go as far south as Los Angeles and then return via the inner line of states. They complained bitterly of road conditions in Oregon. Both Moulster and the now Mrs. Moulster are residents of the northern city, and will make their home there on their return.

HUSBAND MISSING

Fearing that her husband was met with foul play, Mrs. Leo Bergen of 8803 Dowling street, Elmhurst, today asked the police to assist in searching for him. According to Mrs. Bergen, her husband left home Tuesday stating that he was going into the country to buy potatoes. He has several men employed in this capacity she added.

It is thought that he may have gone to Sacramento or Stockton. He had a considerable sum of money due him from a San Leandro cannery.

DON'T YOU FRET, LET US DO IT

Why fuss with making pastry or cakes for dessert? Aside from the possibility of their not being eaten, factory to you, there is the bother and expense of preparation. Let us do it for you with this and the best is so low you wonder why you have worried over dessert all this time. Quart Ice Cream specialties for 50c, delivered packed in ice. Phone Oak, 495.—Advertisement.

Oliver Morosco's "What Next?" Will Be Seen Sunday

BLANCHE RING.

Another Big Comedy Full of Sparkle and Fun Is Coming to Macdonough.

Oliver Morosco will launch another big comedy with music at the Macdonough theater when "What Next?" receives its first presentation here Sunday, August 18, and continues throughout the week. These yearly productions in the musical line by Morosco have come to have an important commercial bearing upon the affairs of Oakland, and are regarded as commercial as well as artistic assets.

Two years ago on July 4, Morosco offered "So Long Letty." This production is still turning them away at every performance everywhere and will probably do so for years to come. Last year Morosco presented "Canary Cottage." It is still going as strong as ever. These two productions alone are advertising California in every city of the United States, and according to Morosco will soon be advertising California throughout England.

"What Next?" according to those who have seen it, promises to be better than either of its famous predecessors. It was written by Oliver Morosco and Elmer Harris, who also were the authors of "So Long Letty" and "Canary Cottage." Its music was composed by Harry Tierney, one of the best known of the modern school of American music and the lyrics were written by Alfred Matthew. It stands among the leaders of the successful writers of American songs.

The scenery is said to be of remarkable beauty and striking qualities, designed by Robert McQuinn, the futurist artist whose work was so favorably received in "Canary Cottage," and the production has been whittled into shape by Stage Director Fred Bishop, and the orchestra will be under the baton of Alfred Matthew. More than 100 men being brought here from New York by Morosco for this occasion.

The play will feature Blanche Ring in tight, and she has not appeared in them for several years. Charlie Winkler, known as the funniest man of the American stage, and a number of other comedians, as well as Flanagan and Edwards of vaudeville fame.

BADGERED WIFE GIVEN DIVORCE

Because her husband insisted on her keeping her eyes directed on her plate during meals, in restaurants and refused her permission to visit her relatives alone, accusing her of attempting to flirt with every man she met, Mrs. Myrtle M. Hood was granted an interlocutory decree of divorce from Fred H. Hood this morning.

F. W. Warnke was granted an interlocutory decree from Frances C. Warnke on ground of desertion.

Final decrees of divorce were granted yesterday to Pansy Fish from Leonard Fish, Grace L. Solomon from Carlos Solomon and Ida Hessemer from Albert O. Hessemer.

Divorce suits were filed yesterday by Mary Brewick against Arthur Brewick and Elmina V. Blair against William S. Blair.

EATS TO SERVE; EIGHT POUNDS OF STEAK WEIGHED

SEATTLE, Aug. 16.—Lloyd Melvin Hatfield, who enlisted in the Washington National Guard ten years ago, but resigned two years ago when he became a Benedict, was certified into the national army, but not until he had partaken of eight pounds of beef-steak and several quarts of milk in order to make the required weight.

The first examination showed him to weigh 113½ pounds. Several hours later he appeared for a second examination and tipped the scales at 121½, just sufficient to permit of his entrance. Although he has a wife and child he did not claim exemption, explaining that his wife's parents had promised to provide for his family until the conclusion of the war.

PROTEST SUSTAINED.
The city council today sustained the protests of residents of Pittsburgh against action of slaughter houses in the vicinity.

S. P. BUYS NEW TERMINAL LAND

Ten acres of land, representing a portion of the old Hubert Mac estate, which included the race track at Emeryville and land on the west side, has been transferred to the Southern Pacific Company for additional freight sheds and switching terminals.

Rumors of the consummation of the sale have been current for some time, but actual confirmation was lacking until today, when the transaction was placed on record. The land is to be utilized once, according to the plans of the company. The consideration involved in the sale is said to be approximately \$100,000.

The designation of several blocks in that district as a "slaughterhouse zone" instructed the city attorney to draw up an ordinance which will prevent the operation of slaughter houses in the vicinity.

MANY REGISTER IN FIRST AID COURSE

Owing to the heavy registration on Tuesday evening for the first course under Red Cross regulations at the Oakland College of Medicine and Surgery, Twenty-eighth and Grove streets, an additional course beginning next week was announced. A woman's course will be given Tuesday and

Thursday afternoons from 4 to 5:30 p.m. Owing to the large demand for men's classes, another class has been organized on Monday and Wednesday evenings at 7:15 o'clock. The original course which has been changed to a woman's class only will continue to meet on Tuesday and Wednesday evenings of each week at 7:15 o'clock. Arrangements are also being made for what is known as course No. 2 and course No. 3. These are recommended by the National Board of Health as supplemental to the first aid course.

In accordance with the Red Cross regulations, a \$3.50 registration

is charged for the first aid course. The classes are in charge of Dr. Frederic M. Loomis.

ELASTICS; LESS MILK.
LOS ANGELES, Aug. 16. — Dynamite explosions caused cows to yield only half their usual milk supply, according to witnesses in federal court today in suits aggregating \$50,000 damages filed against the Fox Film Company. The explosions blamed occurred during filming of battle scenes.

Society News

Society will throng to the Municipal Opera House tomorrow afternoon to greet Miss Ethel Capehart Vivseur, the charming California woman who has been delegated by the French Red Cross Society to come to the United States on an important mission. Miss Vivseur, who as a child played in San Francisco, since the outbreak of the war has given all her time and energy to the care of the fallen soldiers of her husband's country. In Hospital No. 120, at Champlain, on the Maine, she has lived through a remarkable experience. Food, clothing, stores for hospital and laboratory measure in hundreds. It is this story which she will tell and this plea which she will make. She is presented tomorrow by the women of Oakland and the California Civic League, who are intensely interested in the cause which she represents. Perhaps a little later under their auspices will be opened a downtowned storehouse where supplies may be left which later will be sent directly to France to give some comfort to those who have died and are dying.

There is a long list of prominent men and women who are lending their names to the French Red Cross in addition to the executive board and the 1200 members of the civic body. In the number are: Mrs. Wickham Havens, Mrs. Wallace Alexander, Mrs. A. A. Moore Jr., Mrs. Frank C. Havens, Mrs. Charles Butters, Mrs. Edward M. Walsh, Mrs. Edward W. Lange, Mrs. Fred Samuels, Mrs. Prentice Selby, Mrs. J. A. Vandegrift, Mrs. Edgar Ormsby, Mrs. Charles Leonard Smith, Mrs. Frank Milton Avery, Mrs. Carl Bachelder, Mrs. George J. Baldwin, Mrs. Henry Diekmann Jr., Mrs. E. D. Yorker, Mrs. Sam Belle Wakefield, Mrs. Frederick P. Cutting, Mrs. Guy Lillencrantz, Russell Lowry, H. Capwell, C. J. Heston, A. S. Lavenson, Mayor John L. Davis, Joseph H. King, Joseph Rosborough, Charles Shook, Robert M. Fitzgerald, Joseph Calne, Frank Edoff.

In addition to the stirring address of Miss Vivseur, John Francis Neylan will give a brief talk which will concern itself largely with the work of the food administration.

Miss Phyllis Lovell will make a winsome bride when tomorrow she pledges her troth to Roger Paul Haynes. Hastened by a fortnight because of the uncertainty which the national situation gives, the wedding will be observed with a simple simplicity. The ceremony will take place at the handsome residence of the Lovells in Piedmont, only members of the two families included among the guests. The impressive service will be read by Rev. Alexander Allen, rector of St. Paul's Episcopal Church. There will be no attendants. The honeymoon will be but a brief one as the bridegroom will shortly receive the orders which will assign him to his place in the big fighting machine of Uncle Sam.

Miss Lovell is the daughter of Mr. and Mrs. Charles H. Lovell. Since leaving school she has been a favorite with the young set. The announcement of her betrothal in the early spring inspired a round of charming affairs. She received her education in Miss Ransom's school in Piedmont. Her friends include Miss Marguerite Black, Miss Carmen Ghirardelli, Miss Allene Edoff, Miss Helen Cogan. Haynes is the son of Mr. William O. Hann, Alameda. He was the oldest son of the late William O. Hann, a large corporation in San Francisco.

A bride and two brides-elect—Mrs. Roland B. Oliver, Miss Emma Black of San Francisco and Miss Janet Miller—will share in the compliment of the charming affair for which Miss Addison Strong is claiming guests on Saturday. She is opening her attractive home in Northbrae to some thirty intimate friends who will pass a happy hour together. Mrs. Oliver will be remembered as Miss Georgia Meredith, whose romance was so closely allied to the international complications and which reached its culmination only after her husband had crossed two oceans in a hazardous journey. Later in the year the young people will leave for the Congo where Oliver's interests are located and where they will establish a picturesque home. Miss Black is the daughter of Mr. and Mrs. E. Black of San Francisco, her mother being one of the best known clubwomen in the state. Her wedding with William Stephen Webster Kew will probably be among the notable events of the mid-November. Her fiancé is with the government geological survey service. Miss Miller told a little time ago of her coming marriage with Burton Schwarz, a former varsity football man.

The smart set will join the pilgrimage of the music lovers across the bay tomorrow afternoon when for the first time the public will be granted the pleasure of listening to the best parts of the fifteenth grove play which was presented recently at the high jinks of the Bohemian Club. The second performance, abbreviated, of course, and lacking at atmosphere which the Sonoma redwoods give, still has its charm, as it is offered in the Cort Theater each season following the original production from which.

of course, outsiders, including even the wives and sweethearts of the members, are excluded. "The Land of Happiness," as this year's manuscript was called, was composed by Joseph D. Redding with Templeton Grepper writing the book. An orchestra of seventy instruments with several soloists and the Bohemian Club chorus of sixty will render the newest piece of musical literature which has been made since the pioneer days. There will be parts of the 1916 grove play, "Gold" (Dr. H. J. Stewart), and the 1909 play, "St. Patrick of Tara" (Wallace Sabin), to round out the musicals.

Miss Helen Wilkonn is joining the fast growing ranks of the war brides.

Valentine for Monday evening of the coming week. The Wilkonn family represents one of the oldest established families in Alameda where their home has been made since the pioneer days. The bride-elect is the daughter of Mr. and Mrs. Adolph Wilkonn and a granddaughter of the late Adolph Mayrhoth. Among her cousins are Mrs. Chaffee Hall (Emily Lemke), Mrs. Frederick Anderson (Edith Crumer) and Miss Erna Herrmann, one of the most popular girls in San Francisco society. Another cousin, Miss Lucille Ehrenberg, will be her only attendant at the pretty house ceremony of the early week. Valentine is the son of Mr. and Mrs. E. F. Valentine of Berkeley. His father is a retired capitalist. He took his degree from the University of California, where he was prominent in the Zeta Psi fraternity. Valentine recently received his commission as second lieutenant in the officers' reserve corps at the Presidio and is awaiting orders which will take him to the American Lake later in the month. For that reason the honeymoon will be considerably shortened. Upon their return to the bay cities the charming young bride is planning to remain with her parents for a time until her husband's orders are quite definite. The early season will give a procession of social favors in her honor.

Only members of the immediate families included in the marriage invitation. The service will be read by Rev. J. A. B. Fry Roy Valentine will assist his brother as best man.

Miss Nellie Adams will share with Miss Viola Minor in the compliment which Mrs. Harold Jewett is offering on Saturday afternoon, sharing her hospitality with a dozen close friends at a matinee tea. Miss Adams, after an extended sojourn on the Atlantic coast, is being welcomed home, a number of charmingly informal affairs being planned in her honor. Miss Minor

is an August bride-elect, her marriage with Waldemar C. Westergaard being planned for Tuesday evening of the coming week.

A bridge luncheon was the pleasure which Mrs. Walter A. Starr arranged for this afternoon, numbering among her guests some dozen matrons who are intimate friends. The Starrs have reopened their beautiful Piedmont residence after a long out of town sojourn. A part of the season was spent at the A. Moore ranch near Mission San Jose with Mr. and Mrs. Starr running away to the Feather river for a little visit last month.

Miss Mary Sullivan, whose marriage took place later in the year, was made the honored guest at an elaborate luncheon at which Miss Elsie Herthorn entertained yesterday at her home across the bay. A score of the younger set greeted the popular bride-elect whose coming marriage is inspiring much of the gaiety of the early season.

PARLORS TO SEND LARGE DELEGATION

Plans are under way to make Alameda county's representation at the Admission day celebration, which will be held at Sacramento this year, the largest ever turned out by the east bay parlor of Native Sons. Particular stress will be laid upon the patriotic significance of the day, which is held to commemorate the admission of California into the Union. Admission day this year will be a great expression of patriotism and loyalty and this feature will be specially emphasized by the east bay parlor.

Oakland, Berkeley, Alameda, Hayward, San Leandro, Richmond, and possibly Livermore, Niles, Pleasanton and Centerville will participate in the coming celebration. All of these parlor are already taking preliminary steps to insure a great gathering and it is expected that close to 3000 Native Sons will make the journey to Sacramento. Admission day this year is to be the last general celebration of the service of the day and for that reason the Native Sons, as well as the Native Daughters, are determined to make it a record-breaker in every way. The celebration will open Saturday morning, September 8, the same day as the state fair will be opened. Upon the afternoon of the first day a city park in Sacramento, named after General Winn, founder of the Native Sons order, will be dedicated. Receptions will be held in the afternoon and evening Sunday the chief feature will be a band contest, while on Monday the principal features of the big day will be held.

WHAT IS DOING TONIGHT

Dr. Wise lectures, Y. W. C. A.
David Starr Jordan lectures, First M. E. Church, Alameda, 8 p. m.

TO TEACH GIRLS TO SELL GOODS

As the result of a conference between Superintendent of Schools Fred M. Hunter and members of the Retail Dry Goods Association, plans have been formulated for the establishment of a class in department store salesmanship in the vocational school.

The purpose of the class is to teach young women who may enter the employ of the department stores to be efficient to the degree that they may be able to perform the duties of a saleswoman. This sum is the minimum wage stipulated by the recently enacted state law which becomes operative September 1.

Superintendent Hunter held a meeting with Irving Kahn and A. S. Lavenson, members of the Oakland Dry Goods Association, yesterday. They discussed the plan and offered the services of executives and experts of their establishments.

HOLD BABY CLINIC

Under the auspices of the Women's Christian Temperance Union a baby clinic was held this morning at the Young Women's Christian Association with Dr. Sara E. Wise of San Francisco in charge from 10 until 12 o'clock.

Tomorrow at the same hours another free baby clinic will be held for the benefit of mothers desiring to consult a physician regarding their little ones.

This afternoon and tomorrow afternoon from 2 until 4 o'clock Dr. Wise will give talks to mothers.

A reception was tendered to the San Francisco physician last Monday in the Y. W. C. A. court, which was elaborately decorated for the affair. Dr. Wise spoke on "Race Betterment and Moral Education."

MARTINEZ OFFICE

Sergeant Otto C. Nissen, who has been attached to the Regular Army recruiting station in this city, will go to Martinez tomorrow and establish a recruiting station in that city. Sergeant Nissen will campaign Contra Costa county in an effort to get men for all departments of the army. Recently orders were received from headquarters for a special effort in behalf of the quartermaster's department.

GRASSHOPPERS TO DANCE

The Grasshopper Club, a social organization of Oakland, will hold a moonlight picnic and dance at Neptune Beach tomorrow night. A portion of the receipts will go toward a war fund, the balance for a picnic fund to uphold the club, fourteen members of which have enlisted and a number are to be drafted.

COUNTY WINS FROM SHATTUCK ESTATE

Alameda county will be enriched by more than \$100,000 inheritance tax plus interest on the estate of the late Rosa M. Shattuck, who died September 13, 1908, leaving an estate valued at approximately \$1,000,000. The money comes as the result of a decision just handed down by the State Supreme Court in which it reverses an adverse finding of the Superior Court in an action for collection of the tax brought against the estate by County Treasurer M. J. Kelly.

Kelly filed suit six years ago, alleging that Rosa M. Shattuck had made a gift of the portion of which is situated in Berkeley, includes the Hotel Shattuck, the Berkeley Bank of Savings and other valuable holdings, were given by Mrs. Shattuck to avoid the inheritance taxes that might accrue. The Superior Court found against Kelly and the latter appealed the case which has just been decided in his favor.

The tax approximates \$70,000 with an additional interest in the sum of \$40,000. The action was filed against Rosa M. Woolsey, Clinton R. Morse, Blanche Morse, Ruby R. Morse, Nellie M. Winter, Mary C. Morse and Minnie Morse, beneficiaries under the deeds of trust. Kelly was represented by Attorney George H. Richardson.

HE MARKS RIVAL

SEATTLE, Aug. 15.—A homemade gun, made for the express purpose of murdering Eric E. Lemon for life but not killing him, was successful last night when fired by Robert Mervyn, 54, its maker. Mervyn told the police he made the revolver to shoot a shotgun shell and mark Lemon, but not to kill him. As Lemon and Mrs. Mervyn stepped from a ferryboat last night Mervyn gave Lemon the full discharge of the gun in his face. One small shot struck near the eyeball, but did not blind. Otherwise the wound was not serious. The gun was made from two three-quarter inch pieces of galvanized iron pipe ten inches long, joined together with a coupling.

IS "SKIN" GAME

After purchasing a number of skins for a stranger, Dr. D. A. Bandell, of 5327 Colma avenue, discovered that they were goat skins instead of fox skins and on suspicion that he had been "skinned," he has reported the matter to the police. He paid \$52 for the lot which he has learned are valued at about \$5, he says.

BOARD DECREES NO REFLECTIONS WILL BE CAST

It is a sad, sad world! First it was the frizzes and the hoopskirts and now it is the mirrors in which midday was wont to steal a cautious glance to see if everything was on straight. And all because the State Accident Commission says they are dangerous in elevators and must go.

Dangerous? Not to the person who gets a glimpse of a pretty face reflected in the corner, or luxuriates in a long look at the curve of an attractive neck or a dainty shoulder. Not that. The danger lies in the tendency the glass has to shatter when the emergency brake or clutch is thrown on.

Several such cases have been reported. Some have been reported for the injuries received from those bits of flying glass. This comes under the jurisdiction of the accident board and the latter, being cold hearted in regard to whether or not a hat or a ribbon is in place, has issued the mandate to wipe out the mirrors.

Hereafter it will be a law made for women to do their dressing at home.

TELEPHONE MEN TO DEMAND MORE

SAN FRANCISCO, Aug. 15.—Linemen and electrical workers employed by the Pacific Telephone and Telegraph Company announced today that demands will be presented to the company for more wages and improved working conditions. L. C. Grasser, vice-president of the International Brotherhood of Electrical Workers said the exact amount of the wage increase has not been determined. Company officials claimed knowledge of these developments.

ARREST PROWLER.
Mar Dock, a Chinaman, was found prowling in the vicinity of Twenty-ninth avenue and the Southern Pacific right of way at midnight, and when apprehended by Patrolman Doolan and Special Officer Harry Smith they found a loaded revolver on him. He was released on \$50 bail.

PARENTS TO MEET.
The Melrose Heights Parent-Teacher Association will hold a special meeting tomorrow at 2:30 o'clock at the Melrose Heights School, Ignacio and Congress streets.

AMERICANISM TO BE FLAG FEATURE

Americanism will form the basis of a celebration on the afternoon of August 25 when members of the Steinway Terrace and Boulevard Park Improvement and Social Club dedicate their new flag and flagstaff at Forty-first avenue and Merce street with patriotic selections. The pole is forty feet in height and the flag will be large in proportion.

H. D. Bracefield, principal of the John C. Fremont high school, will deliver a timely address, while Fred Emerson Brooks, local poet, will read verse of his own writing. Mrs. Lucile Hartwood and Miss Gertrude Martin are scheduled to take the banner, on which will be a picture of the national anthem.

The Lawrence brothers quartet and Miss Barbara Miller complete the list of participants in the program. The committee of arrangements, now engaged in completing plans, includes the following members: Major Edwin W. Woodward, chairman; L. Earnest Phillips, E. C. Sydes, Mrs. Elsie Martin and Mrs. Alice B. Cox.

TO GET REBATE

An additional rebate of approximately 15 per cent of the amount paid on their policies will be paid employees who insured their employees with the State Compensation Insurance Fund. In 1914, the fund already has distributed 15 per cent in rebated premiums for that year. The fund paid out in losses in that year, 38 per cent only of the total amount paid in premiums. The ratio of losses to premiums has increased since, being 59.92 per cent in 1916.

William Leslie, the secretary-actuary of the fund, has just issued a statement as to the operations, since it was started in 1914.

The total assets were \$1,454,223.48 on March 31 when the last statement was prepared for the Board of Control.

The liabilities, including a reserve of \$867,634.99 to meet losses, and a reserve for unearned premiums paid, were \$1,154,572.22.

SERVE ICE CREAM TONIGHT!
The children enjoy Lehnhardt's ice cream and note the pleasure on their faces when you serve it for Special Ice Cream breaks in great quantities for 50 cents delivered packed in ice, or 50 cents if you call at the store, 1313 Broadway, Phone Oak 496.—Advertisement.

THURSDAY, AUGUST 16, 1917.

NOW A NEW HOSPITAL.

Approval of the proposal to issue \$1,000,000 of bonds to defray the cost of the construction of a new county hospital in Oakland is cause for general satisfaction among the people of Alameda County, but it is especially gratifying to THE TRIBUNE.

By voting the bond issue the people have gone on record as being in favor of the separation of the hospital from the county infirmary and the construction of a modern hospital near the center of county population in Oakland.

This is a step which this newspaper has continually advocated as being necessary to the eradication of a state of affairs which was a public shame and disgrace, and for providing facilities for the adequate treatment of the county's sick and injured.

Over eighteen months ago THE TRIBUNE exposed the lamentable conditions existing at the county infirmary and hospital. The exclusive written and photographic record of what was being perpetrated out near San Leandro in the name of public service which THE TRIBUNE compiled was placed before the public with the persistent demand that conditions be remedied.

After THE TRIBUNE's suggestion that the land of the California College be acquired by condemnation proceedings as a site for the new hospital had been carried out, which involved the saving of \$10,000 to the county, this newspaper urged the voters of the county to approve the issue of bonds to raise the money necessary to build a hospital.

Now THE TRIBUNE looks upon the future with confidence that the new hospital will become a fact without unnecessary delay. The administration of the hospital system has been separated from county politics by the appointment of the county institutions commission. This board of experts and public-spirited citizens, working without compensation, will, THE TRIBUNE is confident, give the people the maximum of value for the money now authorized and the maximum of service when the new hospital is ready for the public's use.

ALSO A BRIDGE.

All financial obstacles to the construction of the new bridge across the estuary between Oakland and the city of Alameda were removed Tuesday, when more than the requisite two-thirds of the vote cast was recorded in favor of a \$900,000 bond issue to meet the county's part of the cost of this project.

Construction of the bridge will be started forthwith. The county has only until October, 1918, to complete this project, so that the present bridges over the estuary may be removed in compliance with federal government instructions. THE TRIBUNE strongly urged the people to vote approval of a bond issue to defray the county's share of the cost of the new modern bascule bridge, and now finds deep satisfaction in the fact that the voters have approved this method of financing the county's part of the project. The new bridge, by greatly increasing the navigability of the estuary, will be a tremendous aid to the development of that section of the county east of the bridge and will reflect to the advantage of the commercial and industrial life of the whole east bay district. Its completion will be one of the most important industrial events in this county in a quarter century.

The proposition to issue a million dollars' worth of bonds for additions and improvements at the county almshouse and poor farm failed to pass, but the approval of the hospital and bridge bonds leaves the county supervisors with a free hand to appropriate from the current general fund such money necessary to defray such improvements as the county institutions commission may recommend in detail.

FARM LOAN BANK REORGANIZED.

A complete "housecleaning" of the federal farm loan bank of Berkeley has resulted from the investigations conducted by Judge Lohdell of the farm loan board at Washington. It was announced at Washington yesterday that the resignations of

four officers of the local bank had been accepted. These are President Burrill G. White, Vice-President R. T. Douglass, Treasurer George Thomas and Director Elwood Mead.

The fact that President White and Treasurer Thomas had submitted their resignations was withheld from the public, and the only reasonable construction to place upon the government's announcement is that these gentlemen have been found wanting in the performance of their official duties and that their connection with the government and the farm loan bank is no longer desired. Messrs. Douglass and Mead had tendered their resignations several weeks previously as a protest against the acts and the public statements of President White.

The official investigation of the bank, portions of the proceedings of which were published exclusively in yesterday's TRIBUNE, show that a most astonishing condition existed, the correction of which was absolutely necessary. Appraisal of securities for loans was conducted by men selected indifferently and haphazardly, without the directors sitting as the bank's executive board having seen them or known anything of their fitness. Loans were issued in the same reckless manner in one case on the promise of a guardian of an owner of property. Many of the rules vital to the successful conduct of a banking business were violated or ignored in a manner that can be explained only upon the ground of total ignorance or vicious and illegal designs. It is only through sheer luck if the Federal Farm Loan board is able to say that the bank now is financially sound.

The directors of the farm loan system have unquestionably taken the wisest course in "accepting the resignation" of the president of the Berkeley institution. His conduct of this office has been of such a nature that the public will be much better satisfied with his resignation.

At the time Dr. Mead and Mr. Douglass announced their resignations, and it became known that the bank had made a number of loans which were not passed upon by the directors sitting as a board, THE TRIBUNE urged that the government conduct a comprehensive investigation of affairs at the Berkeley bank. That the entire personnel of the bank has been changed as a result of the investigation which was subsequently carried out is ample evidence that this was the proper course. With the necessary reorganization the farm loan bank will take a fresh start.

AN EXPENSIVE PROGRAM.

During the first week in August the government at Washington, through the emergency fleet corporation, permitted it to be announced and widely published that the government would immediately take over approximately 700 ocean-going merchant ships now being constructed in American shipyards. It was proposed, so it was explained, to take over these vessels under the recent law authorizing the President to commandeer shipping facilities by payment of an equitable price.

During the second week of August announcement was made that the administration would ask Congress to appropriate \$500,000,000, additional to the \$750,000,000 appropriated a few months ago, to enable the carrying out of the plans for an emergency merchant fleet.

There is an obvious connection between these two announcements. To commandeer 700 ocean-going merchant vessels requires a large sum of money. The average of such vessels under construction in American yards is about 5000 tons dead weight, and 700 such vessels would mean a total of 3,500,000 tons. Secretary of the Navy Daniels has suggested that \$215 per ton would be a proper compensation for commandeered vessels. Assuming the rate of payment to be \$200 per ton, it would require \$700,000,000 to take over this tonnage.

As is well known, no such sum is available, and to authorize the announcement that it would at once take over the 700 vessels the government made a somewhat daring adventure with the public's credulity. Congress has provided only \$250,000,000 for the purchase of ships under private construction. General Goethals, while manager of the emergency fleet corporation, told Congress this would be sufficient. He estimated that there were only about 1,500,000 tons of merchant shipping being built on American ways, and at the average of 5000 tons measurement the government would have to take over only 300 vessels. The remainder of the original shipbuilding appropriation—\$500,000,000—is intended for the construction of new vessels. This estimate of General Goethals, according to the highest official authority, is approximately correct.

The last available official statistics on ships building in American yards were published by the Department of Commerce in the daily commerce reports the first of February. Those statistics were collected and assembled by Commissioner of Navigation Chamberlain. They showed that on January 1, 1917, less than 700 ships of all classes, including wood as well as steel, were being built. Of that list only 415 were of steel construction, and even then the number included barges, motor boats and similar small craft. Commissioner Chamberlain reported further that during January American yards signed contracts for the construction of about twenty vessels, and eight of those which were on the ways on January 1 were launched during the month.

If the federal statistics are correct, the statement that the government is going to commandeer 700 ocean-going vessels is a gross exaggeration, because that number does not exist. And if the ships did exist, the government would not take them over until Congress provided the money. \$500,000,000 additional to the sum already appropriated, with which to purchase them.

NOTES and COMMENT

The verdict awarding \$225,000 to a woman whose heart had been lacerated because a New York man fifty-five years her senior had failed to marry her, was considered excessive by the magistrate and reduced to \$125,000. Which would still seem to be a rather rich balm for any sort of a wound of that character.

You would not think that it would be a problem to determine the difference between a railroad car and a street car, but as a matter of fact the question has never been legally determined. We refer to each in the same terms, but now it seems necessary to differentiate. The city attorney calls attention to the matter in connection with an ordinance's intent.

The rabbit furor may come around again. It was very much a rage twenty years ago. Then it was simply a fad; now it might have relation to the food problem. The hare is easy to raise and affords a cheap article of meat; but Americans do not take to it as some other peoples do.

A news despatch once in a while as to how the kings who have lost their jobs are making out would be of interest. Democracy may not have had breathless concern for them while they wielded scepters, but it has a curiosity as to how they like it when they get into the class of the un-anointed.

The next loan is expected to be four billions, which may not come as readily as the first one, but it will surely come. There is plenty of money, and an abundance of patriotism.

The same corrective has been applied to the Farm Loan Bank that was so salutary in the shipbuilding board, and it is a very effective way to ally trouble in an official body—to fire everybody and begin anew.

The King of Bulgaria has had enough and sighs for peace. The Emperor of Austria is believed to have had a breath in inspiring the Pope's proposal. If there could now eventually a good place for those who started it to let go, probably this war would soon be over.

Denmark is trying to show that she has not passed on food to Germany from that which has been imported from this country ostensibly for her own consumption. What she might show, and what is generally understood, is that she cannot very well help supplying her bullying neighbor, being well under the Teutonic thumb.

There will have to be a correction of the idea of free speech. Some persons take it to mean that anybody has a right to utter himself in any way about anything at any time. We have now come upon a time when this is found not to be so, and if there is not enough individual patriotism to recognize that fact, the collective force, having the welfare of the whole in view, must be applied.

The American Camouflage is a new one. It is a patriotic organization composed mostly of artists, and helps out by the study and application of deceptive colors as applied to war operations, to render objects invisible or confusing to the enemy.

The proposal to have but one delivery a day from the dealers is meeting with obstacles. Drug stores will not come in, and some other dealers, advantageously circumstanced, are shy and disinclined.

SPIRIT OF THE STATE PRESS

It was all right to advise housewives to can everything in sight, but it looks as if the commercial canners got the word first and that their "leavings" will be scarce. The woman who relies on getting fruit to can at the proper season as in years past is going to get left. Green gages, for instance, have hardly put in an appearance in the retail market and already the dealers are announcing that the canners have bought up most of the crop.—Stockton Mail.

Frank Cunha is a rival of the Morse Seed Co. He just harvested 200 acres of pea seed on Winton avenue. Frank isn't quite twenty yet. Last week he secured some 2,000 sacks and with his force of men is working with several cleaning machines which separate the seed from the pod. He has extensive acres of land in pea seeds also near Half Moon Bay.—Haywards Journal.

Thousands of calves in California are being killed as soon as they are born. The world's food emergency means that this practice should be stopped. It is the advice urged by the committee on resources and food supply of the California State Council of Defense. The reason why so many calves are being wasted, according to Professor F. W. Wolf of the University of California College of Agriculture, is that there is at present a great demand for casein, and farmers get such high prices for their skim-milk that they are loth to keep enough of it to feed their young stock.—Los Banos Enterprise.

This is no time for the man about town to have too many friends among the "movie queens." Theda Bara heads the California branch of the Stage Women's War Relief, which is raising a vast sum to send American ambulances to France. It is proposed to have every motion picture actress collect \$5 each from friends until she has secured at least \$100 as her contribution to the fund. So the "ramps" are "a-go!" to get you, if you don't watch out!—San Jose Mercury.

The discovery of forest fires by stationary lookouts is a comparatively recent development in the National Forests. Before this method was used, it often happened that fires burned for days before discovery. It is now seldom that a fire is not discovered within a few minutes after its origin. Further developments in the fire discovery and suppression system of the Forest Service are expected. The wireless telegraph has been installed in one forest in the southwest, and a lookout man circling above the forest in an aeroplane, it is said, was used to great advantage last summer in the East.—Ventura Free Press.

THE FORUM

The Editor of The Tribune disclaims responsibility for opinions and statements expressed in this column. Brief contributions on current topics of general interest are welcome. They will not as a rule be printed unless accompanied by the name of the writer, which, if desired, will be withheld from publication.

WANTS CHECKING FACILITIES.

To the Editor of The Tribune: The recent announcement of the Retail Merchants' Association to follow the plans of the National Council of Defense in the matter of delivery, etc., has met with the approval of the reasonable public; and for the most part they are adjusting themselves to conditions quite comfortably. However, I should like to offer a suggestion which I think will further add to their comfort. One delivery a day of any sort of merchandise is undoubtedly sufficient and the slogan, "Carry your bundles" is a good one, but a two or three-hour shopping tour carrying bundles is hard. If packages are placed in one's auto they are not safe. Besides traffic ordinances prohibit autos being parked for longer than forty minutes in the shopping district. Every store can maintain a checking department for packages with a small part of the money saved on delivery. I feel sure such a department will mean comfort and convenience to customers and further reduce delivery.

MRS. W. P. BURROUGHS.
Oakland, Aug. 15.

THE ORIGINAL CAUSE.

To the Editor of The Tribune: Among THE TRIBUNE's many able editorialists the "Punish the Soldiers" of the 12th inst. is justifiable, if it is "followed up." The situation is that the authorities—your chief of police among them—permit an organization which inculcates arson, murder and lawlessness generally to have a hall, to publish and circulate treasonable literature and to carry on a criminal propaganda. Among other offenses, it is asserted, a soldier was beaten by these fellows. Please—having fulfilled a virtuous duty—proceed to suggest to the civil officials what their duties and obligations are. Anarchists and criminals might even be denied freedom of speech on soap-boxes on our streets.

CLAUDIUS THAYER.
Oakland, Aug. 15.

TODAY 20 YEARS AGO

Thomas Magee, well known business man of Fruitvale who accompanied his son to Dyer at the time of the Klondike gold rush, wrote that the ignorance of the crowds who flocked to the Klondike fields was lamentable. Of the 400 passengers who sailed with him on the steamer George W. Elder, he mentioned, not one in twenty had any definite information as to how to reach his destination.

In the five mile handicap of the Acme Club Wheelmen at the San Leandro course, Krafts of the Bay City Wheelmen broke the previous record for twenty-five miles by twenty seconds, his time being 48:56.

The novelty of a woman undergoing examination to be admitted to citizenship was witnessed in Judge Ellisworth's court when Mrs. Howland applied for citizenship in order that she might hold property.

THE JESTER

Scientifically Speaking.
The Milkman (to suspicious customer)—You won't find nothing wrong with that, ma'am. All our milk's paralyzed by a government anarchist—Passing Show.

His Discovery.

WOULD LEASE QUAY FOR WAREHOUSES

That a portion of the city quay wall and warehouse in the vicinity of the foot of Jefferson street be set aside by the council and let to the highest bidder for warehouse privileges, was suggested to the council today by the Merchants' Exchange in a communication containing a report of conditions made by members of that body. The letter was referred to Commissioner Morse of the public works department.

It is to be effected that large quantities of flour, canned pineapples, lumber, rock salt and other commodities have been lying on the wharf and in the warehouse for a long period of time, stored for trans-shipment. It relates that

the Lawrence Warehouse Company, handling the consignments pays the cost merely for storage in the month in dockage. It is further pointed out that on public wharves in other seaports warehouse business is not permitted to be conducted.

"In conclusion," reads the report, "we should recommend from a merchant's standpoint that a portion of the municipal freight house not required for local shipping be leased to the highest bidder for the purpose of conducting a warehouse with charges for storage to be reasonable to merchants. The rates to be agreed upon by the board of directors and the winning bidder. Such lease to be open to the highest bidder and running for such term of years as would make bidding attractive. We also would recommend that no preferential rights be granted along the dockward by J. C. Downey, president, and Vilbur Walker, secretary

of the Merchants' Exchange.

ROUND - UP BEGUN

SAN FRANCISCO, Aug. 16.—A round-up of a large number of citizens liable to the selective draft on perjury accusations incidental to their exemption claims was begun this morning by U. S. Attorney John W. Preston. A large number of reports of the making of false affidavits in claims for exemption were brought to the notice of officials of the Department of Justice and a half dozen opera-

ROUND - UP BEGUN

DOCK & DECK

During the past 24 hours 32 vessels have arrived inside of the Golden Gate from different coastwise and foreign ports, and twelve of them will discharge their cargoes at Oakland harbor. Among them are the British bark Wathara, Captain Murchison, from Australia, with 1500 tons of wheat which will be sent east by rail, also the schooner Eric and the Ethel Zane from the South Sea Islands with 1996 tons of copra between them. The Acadouche with 3674 tons of coal from Puget Sound for the Western Fuel Co.; the steamer Newburg from Stewart's Point, having 11,000 posts and 8000 railroad ties, the other vessels having lumber from coastwise ports, and the schooner Wm. G. Irwin with 4134 barrels of lime from Roche Harbor.

GETTING READY FOR ALASKA FLEET.

As inside towage is not very brisk at

pany are taking advantage of it and are getting their boats in shape to handle the Alaska fleet, which is now on its

way to this port. Yesterday the tug Sea Witch was placed on drydock of Tibbits for a general overhauling and the Sea Rover went to Moore & Scott's, where she is having new tubes in her boilers, besides having her hull looked over. All their outside tugboats are busy doing towing along the coast, and have months of work ahead contracted for.

Captain Lorentzen of the four masted barkentine Koko Head has made a great record in unloading and getting ready for sea. He arrived at Oakland long wharf on July 31, from Panama, with 550 tons

dock of Moore & Scott to be cleaned and painted. He loaded her stores and provisions, shipped her crew and galled to-

day for Columbia river to load a cargo of 1,400,000 feet of lumber for Algoa Bay, South Africa.

United States lighthouse tender Madrone left Goat Island this morning tow-

where she will coal and go on duty along the coast.

Fishermen along the Southern California coast who go after barracouda have been meeting with little success for several weeks during the run of that particular kind of fish and have notified the wholesale markets at San Pedro that owing to the shortage they have raised the price of barracouda to 11c per pound.

Australia does not intend to have its

When the ex-German steamer "Mark" sails this Saturday next for New York, it will be known as the American ship "Cunewe." This name was given her by Mr. Woodrow Wilson. She was interned at Manila when taken over by the United States government, and the cargoes captured German vessel on the Pacific

Rolph's barges St. James and Isaac Ree, which have been bringing ship timbers from Columbia river to Eureka, where Rolph has his shipyard, has been taken off that route and will again resume their old trade carrying coal from Puget Sound to this port.

The Norwegian steamer Dicto, lately completed at Oakland for B. Stolt Nielsen

& Company of Norway, has been set free by the United States government, and will be allowed to make one round trip to the Orient from this port. When she was completed the owners wanted to charter her for two trips to Japan, to the Matsui company, but the government stepped in. She has been at anchor in the bay for nearly a month. On June 9 she was launched.

King & Wing shipyard at West Seattle, Washington, has been incorporated by Thomas J. King and Wing, and will build the largest vessel. The King & Wing shipyard is known all over the Pacific Coast. It is the oldest ship building plant on Puget Sound, but never

Captain W. P. Bartlett has taken command of the steamer Yale, relieving Captain E. G. Farley, and Captain J. P. Hansen takes command of the steamer Saginaw in place of Captain I. Halvorsen.
